**Nichrome** combines an experience of 37 years in the packaging industry, characterised by high technology to provide packaging solutions to all the reknowned names across a gamut of industries and applications.

Along with being the pioneers of the Vertical Form Fill Seal Machine, we have also developed a wide range of products and solutions that meets the satisfaction of our customers.

Nichrome Packaging Solutions ensure the highest production rates, maximum accuracy and consistent pouch quality.

Having completed 6000 installations across 45 countries and with 8 offices in India, Nichrome has evolved as a premium brand and is poised to become a global company that offers complete end-to-end integrated packaging solutions.

## Mission

To constantly innovate, develop and deliver premium quality machines, end-to-end solutions and services, to the packaging industry.

## Pack SMART with RICH INDUSTRY EXPERIENCE

Nichrome for more than three decades has provided the best in packaging solutions, custom made to the requirements of its wide array of clientele.

From consultation to development, production to service support, Nichrome treats every project uniquely and manages each on an individual basis. Whatever the requirement may be, Nichrome Packaging Solutions ensure the highest production rates, maximum accuracy and consistent pouch quality.

## Pack SMART with STATE-OF-THE-ART INFRASTRUCTURE and R&D

Today Nichrome with its large global presence offers end-to-end packaging solutions to its clients. For more than three decades, we have been partnering companies like yours by supplying packaging machines which are designed to meet the specific needs. Nichrome believes that a true packaging solution is an optimum combination of the product to be packed, the packaging machine and the packing material.

Nichrome's packaging solutions come equipped with reliable and cutting edge technologies, which provide right fit packaging solutions that are accurate, flexible and sturdy, hence offering optimum productivity and minimal of excess give-aways.

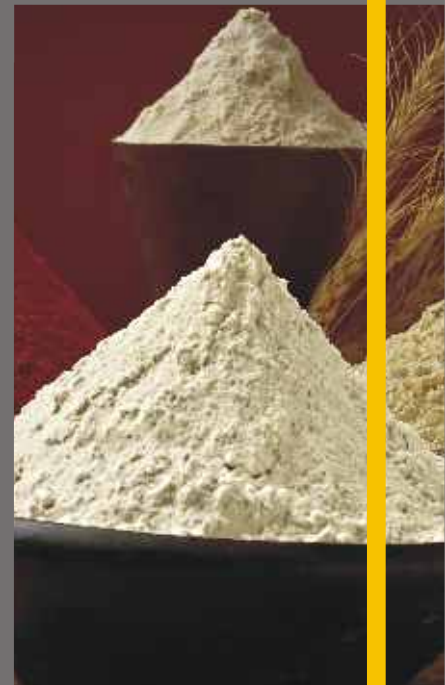

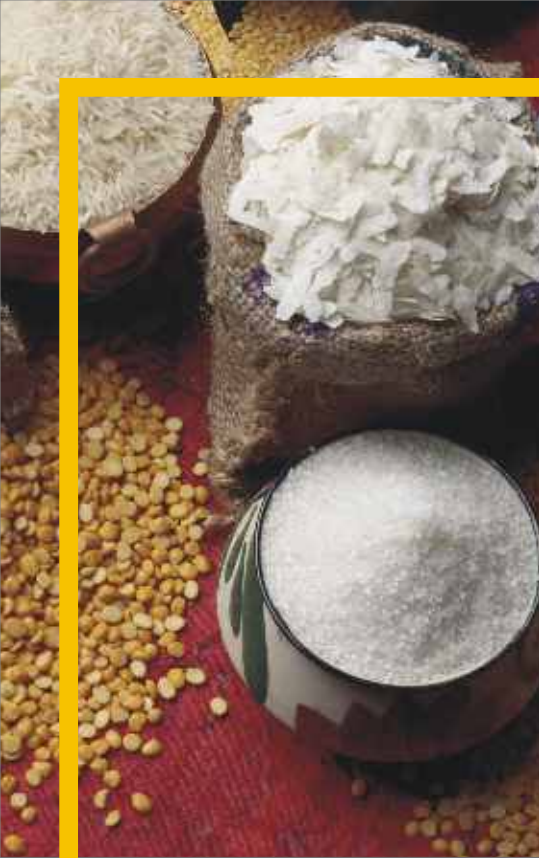

## This is where your needs meet their ends

Nichrome houses one of the finest and the most advanced Research and Development facilities in India – Nichrome Development Center, is recognized by the Government of India (Department of Scientific and Industrial Research). Our capabilities extend to advance 3D modeling, parametric designing, product data management and various other designing capabilities to give the necessary technological edge over competitors.

Nichrome has a world-class manufacturing set up spread over 12 acres at 'Shirwal', 40 Km south of Pune. A fully integrated state-of-the-art factory houses various departments like planning, engineering, supply chain, machine assembly, extensive product trials and testing, commissioning and service for actual product filling at simulated atmospheric conditions. The product testing includes a constant and comprehensive testing of our machines and client products, to offer them nothing but the best.
