Specifications

Working Principle

Automatic laddi/string folding collating/bundling & flow wrapping system

- Laddi/String of pouches from VFFS Machine (Single or Double head machine)
- Folding each laddi/string
- Collating 2 stacks together which are then automatically transferred into flow wrap machine
- Bundle flow wrapped to form distributor packs or retail ready pack.

Feeding System

- Automatic folding, bundling & flow wrapping

Standard Matrix

SKU (Laddi/String)	Matrix (No. of pouches in Laddi X No. of Laddis) = Total No. of pouches in pack	Weight of flow wrap pack/distributor pack
50gm	10 X 2 = 20	1kg
100gm	5 X 2 = 10	1kg

*customization possible

Line Speed

Synchronized to match VFFS machine of speed of up to 80ppm

Supply Voltage

415V AC 3 Phase 50Hz

Air Supply

8-12 CFM

Flow wrap pouch types

CSPP

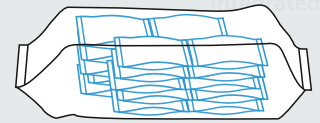

Product Contact MOC

SS304

Allied Equipment

- Printing
- Labelling
- HDPE Bag Filling
- Palletising
- Overwrapping/Stretch Banding/Shrink Wrapping

Pouch Formats

Secondary Pouch - Center Seal Pillow Pouch

Applications

Spices, Tea, Coffee, Instant Mixes, Milk Powder, Nutraceutical

End-To-End Solutions
